EXPERIMENTAL GERONTOLOGY

Affiliated with the International Association of Gerontology

EDITOR-IN-CHIEF

GEORG WICK, M.D.
Institute for Biomedical Aging Research of the
Austrian Academy of Sciences
Rennweg 10, A-6020 Innsbruck, Austria
Tel: +43-512-5839-19-15
Fax: +43-512-5839-19-8
E-mail: exp.gerontol@oeaw.ac.at

MANAGING EDITOR: Beatrix Grubeck-Loebenstein (Innsbruck, Austria)
EUROPEAN AFFILIATE EDITORS: Peter Berger, Pidder Jansen-Duerr (Innsbruck, Austria)
U.S. AFFILIATE EDITORS: George S. Roth (Baltimore, MD, USA), Rudolph E. Tanzi (Charlestown, MA, USA)

ASSOCIATE EDITORS

J. Carl Barrett
Research Triangle Park, NC, USA

Konrad Beyreuther
Heidelberg, Germany

Michael Breitenbach
Salzburg, Austria

Henry G. Burger
Clayton, Victoria, Australia

Vincent J. Cristofalo
Philadelphia, PA, USA

J. Fred Dice
Boston, MA, USA

Rita B. Effros
Los Angeles, CA, USA

Caleb E. Finch
Los Angeles, CA, USA

Claudio Franceschi
Modena, Italy

Michael Freissmuth
Wien, Austria

Amiela Globerson
Rehovot, Israel

Katsuiku Hirokawa
Tokyo, Japan

Nikki J. Holbrook

Joseph L. Witztum
La Jolla, CA, USA

FOUNDING EDITOR: Alex Comfort, M.D. (Oxon, UK)
HONORARY EDITOR: Leonard Hayflick, Ph.D. (San Francisco, CA, USA)

Publishing/Subscription Office: Elsevier Science Inc., 655 Avenue of the Americas, New York, NY 10010-5107, USA.

EXPERIMENTAL GERONTOLOGY is published eight times a year in the months of January, March, May, June, August, September, November, and December. For customers in Europe, The CIS and Japan: Institutional Rate: NLG 1,670.00, Personal Rate: NLG 261.00. For customers in other countries: Institutional Rate: US$ 960.00. Personal Rate: US$ 150.00. Prices include postage and are subject to change without notice. For additional information contact Elsevier Science Customer Support Department, P.O. Box 945, New York, NY 10010. Tel: (212) 633-3730. Toll-Free (for customers in North America): 1-888-4ES-INFO. Fax: (212) 633-3680. E-mail: usinfo-f@elsevier.com

Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Claims for missing issues should be made within six months of our publication (mailing) date. Please address all requests regarding orders and subscription queries to: **The Americas,** Elsevier Science, Customer Support Department, P.O. Box 945, New York, NY 10010, USA [tel: (+1) 212-633-3730/1-888-4ES-INFO; fax (+1) 212-633-3680; e-mail: usinfo-f@elsevier.com]. **Japan,** Elsevier Science K. K., Customer Support Department, 9-15 Higashi-Azabu 1-chome, Minato-ku, Tokyo 106, Japan [tel. (+81) 3-5561-5033; fax: (+81) 3-5561-5047; e-mail: kyf04035@niftyserv.or.jp]. **Asia-Pacific (*excluding Japan*),** Elsevier Science (Singapore), Pte Ltd, No. 1 Temasek Avenue, 17-01 Millenia Tower, Singapore 039192 [tel: (+65) 434-3727; fax (+65) 337-2230; e-mail: asiainfo@elsevier.com.sg], **Rest of the World**, Elsevier Science, Customer Support Department, P.O. Box 211, 1001 AE Amsterdam, The Netherlands [tel: (+31) 20-485-3757; fax: (+31) 20-485-3432; e-mail: nlinfo-f@elsevier.nl]. For orders, claims, product enquiries (no manuscript enquiries), please contact the Customer Support Department nearest to you.

VOLUME 33

Numbers 1/2

Special Issue
A Tribute to Alex Comfort

William F. Forbes	1	Editorial
Robin Holliday	5	Alex Comfort: Clearing the way for future research
Caleb E. Finch	11	Alex Comfort: Intellectual eminence in science and humanism
Julia W. Albright and Joseph F. Albright	13	Impaired natural killer cell function as a consequence of aging
Takashi Makinodan	27	Studies on the influence of age on immune response to understand the biology of immunosenescence
Avril D. Woodhead	39	Aging, the fishy side: An appreciation of Alex Comfort's studies
Ronald Wilson Hart and Angelo Turturro	53	Evolution and dietary restriction
Edward J. Masoro	61	Hormesis and the antiaging action of dietary restriction
Robert J. Pignolo, Bernard G. Martin, Joseph H. Horton, Anne N. Kalbach and Vincent J. Cristofalo	67	The pathway of cell senescence: WI-38 cells arrest in late G_1 and are unable to traverse the cell cycle from a true G_0 state
Igor Garkavtsev, Christopher Hull and Karl Riabowol	81	Molecular aspects of the relationship between cancer and aging: Tumor suppressor activity during cellular senescence
Denham Harman	95	Extending functional life span
Jaime Miquel	113	An update on the oxygen stress–mitochondrial mutation theory of aging: Genetic and evolutionary implications
John C. Carlson and John C.M. Riley	127	A consideration of some notable aging theories

T.B.L. Kirkwood 135 Alex Comfort and the measure of aging

William F. Forbes and Jane F. Gentleman 141 Risk factors, causality, and policy initiatives: The case of aluminum and mental impairment

Richard C. Adelman 155 The Alzheimerization of aging: A brief update

Harvey Wheeler 159 Alex Comfort's biology of ontology: Implications for gerontology, phenomenology and the philosophy of science

Antonio T. de Nicolas 169 The biocultural paradigm: The neural conneciton between science and mysticism

Ira Sobkowska-Ashcroft 183 *The Imperial Patient* and other Alex Comfort novels

Roy L. Walford 189 Children of the elderberry bush (for Alex Comfort)

Leonard Hayflick 191 A novel technique for transforming the theft of mortal human cells into praiseworthy federal policy

Number 3

George M. Martin	209	Obituary: Paul M. Gallop
Robin Holliday	213	Comment: Is AIDS due to the clonal senescence of CD4 lymphocytes?
Daniel E. Martínez	217	Mortality patterns suggest lack of senescence in hydra
Raj Hari, Vasanti Burde and Robert Arking	227	Immunological confirmation of elevated levels of CuZn superoxide dismutase protein in an artificially selected long-lived strain of *Drosophila melanogaster*
Allison L. Henderson, Wei-Wen Cao, Rong-Fu Wang, Ming-Hsiung Lu and Carl E. Cerniglia	239	The effect of food restriction on the composition of intestinal microflora in rats
Natalia A. Denisova, Steven A. Erat, Jeremiah F. Kelly and George S. Roth	249	Differential effect of aging on cholesterol modulation of carbachol-stimulated Low-K_m GTPase in striatal synaptosomes
Nathalie Boucher, Tania Dufeu-Duchesne, Eric Vicaut, Dominique Farge, Rita B. Effros and François Schächter	267	CD28 expression in T cell aging and human longevity
	283	Book Review
	285	Announcement

Number 4

Georg Wick	287	Editorial
Pidder Jansen-Dürr	291	Mini-Review: The making and the breaking of senescence: Changes of gene expression during cellular aging and immortalization
Ornella Pastoris, Paola Foppa, Mariana Catapano and Maurizia Dossena	303	Metabolite concentrations in skeletal muscle of different aged rats submitted to hypoxia and pharmacological treatment with nicergoline
C. Di Giulio, M. Di Muzio, G. Sabatino, L. Spoletini, F. Amicarelli, C. Di Ilio and A. Modesti	319	Effect of chronic hyperoxia on young and old rat carotid body ultrastructure
Philip M. Service, Ricky Ochoa, Robert Valenzuelza and Charles A. Michieli	331	Cohort size and maximum likelihood estimation of mortality parameters
B. McGahon, C.A. Murray, M.P. Clements and M.A. Lynch	343	Analysis of the effect of membrane arachidonic acid concentration on modulation of glutamate release by interleukin-1: An age-related study
Peter Berger, K.-H. Usadel, S.R. Bornstein and P. Nawroth	355	Meeting Report: 1st meeting of the German interest group for geronto-endocrinology
	361	Announcement

Number 5

T. Brosche and D. Platt — 363 Mini-review: The biological significance of plasmalogens in defense against oxidative damage

E. G. McGeer and P. L. McGeer — 371 Mini-review: The importance of inflammatory mechanisms in Alzheimer disease

R. K. Iles and S. A. Butler — 379 Review: Human urothelial carcinomas—A typical disease of the aged: The clinical utility of human chorionic gonadotrophin in patient management and future therapy

H. Kitano and S.-i. Imai — 393 The two-process model of cellular aging

E. Nakamura, M. A. Lane, G. S. Roth and D. K. Ingram — 421 A strategy for identifying biomarkers of aging: Further evaluation of hematology and blood chemistry data from a calorie restriction study in rhesus monkeys

Y. Benazzoug, C. Borchiellini, J. Labat-Robert, L. Robert and P. Kern — 445 Effect of high-glucose concentrations on the expression of collagens and fibronectin by fibroblasts in culture

W. Fan, H. Kou, D. Shen and E. C. LeRoy — 457 Identification of altered expression of ADP/ATP translocase during cellular senescence in vitro

V. I. Shefer and M. I. Talan — 467 The effect of exercise training in cold on shivering and nonshivering thermogenesis in adult and aged C57BL/6J mice

P. C. Braga, M. T. Sala, M. Dal Sasso, A. Pecile, G. Annoni and C. Vergani — 477 Age-associated differences in neutrophil oxidative burst (chemiluminescence)

C. Maczek, G. Böck, G. Jürgens, D. Schönitzer, H. Dietrich and G. Wick — 485 Environmental influence on age-related changes of human lymphocyte membrane viscosity using severe combined immunodeficiency mice as an in vivo model

J. A. Vargas, D. A. Vessey and D. L. Schmucker — 499 Effect of dehydroepiandrosterone (DHEA) on intestinal mucosal immunity in young adult and aging rats

R. V. Dvorak and E. T. Poehlman — 507 Norepinephrine kinetics in older women: Relationship to physical activity and blood pressure

517 Announcements

Number 6

Mini-Reviews

A. Bürkle — 519 Poly(ADP-ribose) polymerase and aging

R. Sgonc and J. Gruber — 525 Apoptosis detection: An overview

S. Mariotti, L. Chiovato, C. Franceschi and A. Pinchera — 535 Thyroid autoimmunity and aging

Perspectives

C. Brenner, I. Marzo and G. Kroemer — 543 A revolution in apoptosis: From a nucleocentric to a mitochondriocentric perspective

S. Imai and H. Kitano — 555 Heterochromatin islands and their dynamic reorganization: A hypothesis for three distinctive features of cellular aging

Original Papers

S. M. Jazwinksi, S. Kim, C.-Y. Lai and A. Benguria — 571 Epigenetic stratification: The role of individual change in the biological aging process

R. Aspinall, J. Carroll and S. Jiang — 581 Age-related changes in the absolute number of CD95 positive cells in T cell subsets in the blood

F. A. Huppert, W. Solomou, S. O'Connor, K. Morgan, P. Sussams and C. Brayne — 593 Aging and lymphocyte subpopulations: Whole-blood analysis of immune markers in a large population sample of healthy elderly individuals

Y. Hu, B.-W. Hochleitner, G. Wick and Q. Xu — 601 Decline of shear stress-induced activation of extracellular signal-related kinases, but not stress-activated protein kinases, in in vitro propagated endothelial cells

B. Shukitt-Hale, G. Mouzakis and J. A. Joseph — 615 Psychomotor and spatial memory performance in aging male Fischer 344 rats

Short Communication

M. Saurwein-Teissl, D. Schönitzer and B. Grubeck-Loebenstein — 625 Dendritic cell responsiveness to stimulation with influenza vaccine is unimpaired in old age

633 Announcements

Numbers 7/8

Special Issue
Proceedings of the Fourth International Symposium on the Neurobiology and Neuroendocrinology of Aging

	635	Introduction
L. Hayflick	639	How and why we age
O. Gaber and K.-H. Künzel	655	Man from the Hauslabjoch
C. L. Grady	661	Brain imaging and age-related changes in cognition
A. Bartke, H. M. Brown-Borg, A. M. Bode, J. Carlson, W. S. Hunter and R. T. Bronson	675	Does growth hormone prevent or accelerate aging?
C. Behl	689	Effects of glucocorticoids on oxidative stress-induced hippocampal cell death: Implications for the pathogenesis of Alzheimer's disease
M. L. Barbaccia, A. Concas, M. Serra and G. Biggio	697	Stress and neurosteroids in adult and aged rats
J. Herbert	713	Neurosteroids, brain damage, and mental illness
M. M. Miller, H. P. J. Bennett, R. B. Billiar, K. B. J. Franklin and D. Joshi	729	Estrogen, the ovary, and neurotransmitters: Factors associated with aging
F. Waldhauser, J. Kovács and E. Reiter	759	Age-related changes in melatonin levels in humans and its potential consequences for sleep disorders
S. M. Jazwinski	773	Genetics of longevity
S. C. Stearns, M. Ackerman and M. Doebeli	785	The experimental evolution of aging in fruitflies
D. K. Ingram, H. Ikari, H. Umegaki, J. M. Chernak and G. S. Roth	793	Application of gene therapy to treat age-related loss of dopamine D_2 receptor
L. Ye, J. Nakura, A. Morishima and T. Miki	805	Transcriptional activation by the Werner syndrome gene product in yeast
S. M. McCann, J. Licinio, M.-L. Wong, W. H. Yu, S. Karanth and V. Rettorri	813	The nitric oxide hypothesis of aging
R. C. Melcangi, V. Magnaghi, I. Cavarretta, M. A. Riva, F. Piva and L. Martini	827	Effects of steroid hormones on gene expression of glial markers in the central and peripheral nervous system: Variations induced by aging

E. Syková, T. Mazel and Z. Šimonová 837 Diffusion constraints and neuron–glia interaction during aging

L. C. B. Rønn, B. P. Hartz and E. Bock 853 The neural cell adhesion molecule (NCAM) in development and plasticity of the nervous system

E. Giacobini 865 Aging, Alzheimer's disease, and estrogen therapy

F. Marx, I. Blasko, M. Pavelka and B. Grubeck-Loebenstein 871 The possible role of the immune system in Alzheimer's disease

K. Hsiao 883 Transgenic mice expressing Alzheimer amyloid precursor proteins

A. Sagripanti and A. Carpi 891 Natural anticoagulants, aging, and thromboembolism

S. S. C. Yen and G. A. Laughlin 897 Aging and the adrenal cortex
